

HALOT LITE

Unlimited Imagination

Large Format Resin 3D Printer

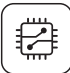

High Precision & Uniformity
Large Printing Size
High Stability

Product Parameters

Machine Size	330*301*572mm	LCD	8.9" monochrome screen
Printing Size	192*120*200mm	LCD Pixel	3840*2400
Machine Weight	10.6kg	Auto-leveling	Easy manual leveling
Packing Weight	13.5kg	Input Power	100-240V
Packing Size	425*393*685mm	Output Power	CH1: 24V, 2A CH2: 4-5.5A, 30-50V
XY-axis Precision	0.05mm	power supply	250W
Printing Speed	1-4s/layer	UI Style	Creality UI style
Interaction Screen	5" color touch screen	Z-axis type	Single Z axis + T type screw
Material	UV Resin	Software Control System	Windows7 or above/Mac system
LCD Wavelength	405nm	Language	Chinese/English/German/French/Spanish/ Russian/Portuguese/Italian/Dutch/Japanese/ Korean/Polish

Product Advantages

- 
Self-developed Integral Light Source
 More than 80% Uniformity, High precision
- 
High Performance Motherboard
 ARM Cortex-A53 processor to ensure smooth operation and consistent printing accuracy and efficiency
- 
Large Printing Size
 192*120*200mm molding space to realize your creative potential
- 
8.9" Monochrome Screen
 Resolution 3840*2400 showing the exquisite details of the model
- 
WiFi Intelligent Control
 Creality Cloud APP for monitor printing progress, adjust the printing settings, Start/Stop prints
- 
5-inch Color Touch Screen + Simple Visual Interface
 Easily control the operation of Halot Lite
- 
Making Slicing Simple and Efficient
 You can use both Lychee or our self-developed HALOT Box software for easy and efficient slicing
- 
OTA Online Upgrade
 Built-in Wi-Fi allows one-click upgrades to the firmware
