

# CREALITY CR-10 S5

High Precision 3D Printer

3Idea Technology  
Imagine | Create | Print

Print Size

500\*500\*500mm

Machine Size

800\*790\*710mm

N.W.

17.5KG

Package Size

835\*740\*300mm

G.W.

22.6KG

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Molding Tech:     | FDM(Fused Deposition Molding)                     |
| Filament:         | PLA                                               |
| Hotbed Temp:      | 100°C                                             |
| File Transfer:    | TF card/USB                                       |
| Languages:        | Chinese/English                                   |
| File Format:      | STL/OBJ/AMF                                       |
| Slice Software:   | Creality Slicer/Cura/Repetier-Host/<br>Simplify3D |
| Operation System: | Windows XP/7/8/10 MAC/Linux                       |
| Power Supply:     | Rated voltage: 115-230V, Output: 12V              |
| Nominal Power:    | 270W                                              |

Ultra-large Size  
500\*500\*500  
ultra-large size,  
satisfies your imagination

Detachable Design  
Detachable design,  
reaches more DIY assembly  
requirements

High Quality Nozzle  
High precision alloy  
nozzle with smooth  
extrusion

Stable Printing  
High standard V profile+  
precise pulley structure,  
operates with low noise

High-precision Printing  
Z-axis double screws  
works synchronically to  
ensure precise printing

Glass Platform  
Supports consecutive  
200 hours working
