

CREALITY CP-01

3-in-1 Intelligent Modular 3D Printer

3Idea Technology
Imagine | Create | Print

Machine Size

440*395*535mm

Package Size

625*465*250mm

3D Printing Size

200*200*200mm

Laser Engraving Size

200*200mm

CNC Carving Size

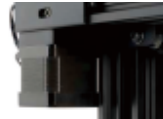

200*200mm

N.W.

12.1KG

G.W.

15.26KG

Basic Parameters

File Transfer: TF card/USB

Power Supply: Input: 115V/230V AC, Output: 24V

3D Printing (FDM):

File Format: STL/OBJ/AMF

Slice Software: Creality Slicer/Cura/Repetier-Host/Simplify3D

Supported Filament: PLA/ABS/TPU/PVA

Laser Engraving

Supported Filament: Wood/paper/plastic/leather, etc.

File Format: JPG/JPEG/SVG/BMP/NG.....

CNC Carving

Drill Chuck Clamping Range: 0-4mm

File Format: JPG/JPEG

Standard Cutter Size: HRC55 Tungsten steel milling cutter 4F 4*1

Multi-functional
3D printing, CNC carving
and laser engraving

Large Printing Size
200*200*200mm
to cater multiple
creative ideas

Ease in Assembly
Exchangeable nozzle
and modular structure

High Precision
Capable of delivering
quality results under
3 working modes

More Printing Materials
Multiple materials for
3D printing, CNC carving
and laser engraving

Resume Printing
Automatically resumes
printing when powered on
